

Affidavit Autograph Guidance for suv'erans and witnesses

Example: suv'eran with soul name 'Mermaid' and living being, 'Mary Jane' of the bloodline "Smith"

Step 1 – Autographs

- i) The suv'eran applies given name(s) autograph on every page (including annexures) in purple ink e.g. (Mary Jane).
- ii) Witnesses provide their given name(s) autograph on the main autograph page in purple ink. The Notary Public and Justice of the Peace (JP) usually provide their full name signature.
- iii) Witnesses provide their given name(s), autograph (preference), or initials (e.g. initials for John Robert Spencer would be "JR" or "JRS") on all other pages (including annexures) in purple ink. The Notary Public and Justice of the Peace usually provide their full name signature on all other pages (including annexures).
- iv) Suv'eran can request the Notary Public or JP to use purple ink, but they may apply black or blue ink.
- v) The Notary Public will apply their Notary Public stamp, including their details and autograph/signature, on the main Affidavit autograph page.
- vi) The Justice of the Peace will apply their Justice of the Peace stamp, including their details and autograph/signature, on the main Affidavit autograph page.

Step 2 – Soul Autograph

After the Affidavit is witnessed, the suv'eran applies their soul's name(s) autograph in gold ink (e.g. Mermaid)

Step 3 - Combination autograph

After the Affidavit is witnessed, the suv'eran applies their combination autograph in the following order:

Combination process

- i) Soul name(s) autograph in gold ink
- ii) Given name(s) autograph in purple ink on top of the soul's name(s) autograph
- iii) 'Living wo/man seal' (if you have one) in purple ink on top of: the soul's name(s) autograph + given name(s) autograph
- iv) Then you finish off with your strongest seal - living wo/man thumbprint in red (red ink or blood) on top of: soul's name(s) autograph + given name(s) autograph + 'living wo/man seal'

Example: Soul 'Bonnie', given name James, living wo/man: seal in purple ink, thumbprint in red ink (thumbprint redacted/replaced to keep suv'eran's details private).
